SEE PAGE 2 FOR PROPERTY OWNER SIGNATURE AND MAINTENANCE REQUIREMENTS

OWTS MAINTENANCE REQUIREMENTS

The Illinois Department of Public Health (IDPH) incorporated maintenance requirements into the IL Private Sewage Disposal Code. Please read and become familiar with these maintenance and record keeping requirements.

SELECT ONE OF THE FOLLOWING:

RESIDENTIAL PROPERTY:

- The system shall be evaluated within 3 years after the date of installation of the system.
- These systems may be evaluated by the homeowner, a licensed Private Sewage Disposal System Installation Contractor, a licensed Environmental Health Practitioner, an IL licensed Professional Engineer, a representative of IDPH or an agent of IDPH or Kendall County Health Department (KCHD).

NON-RESIDENTIAL PROPERTY WITH A SEPTIC TANK:

- The system shall be evaluated within 3 years after the date of installation of the system.
- These systems may be evaluated by a licensed Private Sewage Disposal System Installation Contractor, a licensed Environmental Health Practitioner, an IL licensed Professional Engineer, a representative of IDPH, or an agent of IDPH or KCHD.

SELECT THE SYSTEM TYPE(S) FOR THIS PROPERTY:

SEPTIC TANK TO SUBSURFACE SEEPAGE

- After the first evaluation, the system shall be evaluated a minimum of once every 5 years for a residential property or every 3 years for a non-residential property.
- The tank and all of the compartments of the system shall be evaluated to determine if scum and settled solids are greater than 33% of the liquid capacity of the tank.
- If the layers of scum and settled solids are greater than 33%, the tanks and compartments shall be pumped out and maintenance shall be performed.
- Depending on use, tanks & compartments may need to be evaluated and pumped more frequently.
- If the system contains an effluent filter in a septic tank, annual maintenance is required.

AEROBIC TREATMENT UNITS (ATU's)

- ATU's require an evaluation and maintenance at least every 6 months.
- The homeowner of an ATU may conduct the inspection and maintenance, but the inspection and maintenance shall be performed per the manufacturer's requirements to assure proper operation.
- If the required inspections and maintenance are not performed, the system is in violation of the Illinois Department of Public Health Private Sewage Disposal Licensing Act and Code.
- If the system contains an effluent filter in a septic tank, annual maintenance is required.

OTHER SYSTEMS NOT LISTED HERE SHALL BE MAINTAINED IN ACCORDANCE WITH THE MANUFACTURER'S SPECIFICATIONS OR BASED ON A MAINTENANCE INTERVAL APPROVED BY IDPH & KCHD.

- The owner of a OWTS may submit an alternative maintenance interval for approval.
- IDPH & KCHD will evaluate the alternative interval on a case-by-case basis.
- **Contact KCHD if you are unsure of the specific maintenance requirements for your OWTS.**

A Private Sewage Disposal Installation Contractor can provide you with all maintenance requirements for your system.

PROPERTY OWNER SIGNATURE — ACKNOWLEDGEMENT & ACCEPTANCE OF MAINTENANCE REQUIREMENTS

I am aware of all maintenance requirements outlined in the Illinois Department of Public Health Private Sewage Disposal Code ("Code"), 77 Ill. Admin. Code 905, and I accept responsibility for servicing and maintaining the system as required by the Code. Further, I am aware of my obligation to,

- 1) prepare or obtain maintenance records for this on-site wastewater treatment system,
- 2) maintain all maintenance records on forms approved or provided by the Health Department,
- 3) make such records available upon request,
- 4) transfer the records to any subsequent property owner.
